

Attachment A – FOI2122002 – Document Released in Full

Under the Act, FOI applicants have a right to seek documents, rather than information or datasets. However, section 17 of the FOI Act also permits FOI agencies to draw information from computers or other equipment and to collate that information into a document, which had previously not existed (**the Relevant Document**). nbn's FOI Officer determined to release the Requested Document to the Applicant.

Distance to Adelaide GPO^(*)	Active nbn satellite services at 1 July 2021	Potential nbn satellite services^(**) at 1 July 2021	Grand Total	Subset of complex premises as at 1 July 2021^(***)
0 - 5 km radius from Adelaide GPO	1	1	2	2
5 - 10 km radius from Adelaide GPO	50	141	191	179
10 - 15 km radius from Adelaide GPO	175	561	736	624
15 - 20 km radius from Adelaide GPO	202	768	970	821
20 - 25 km radius from Adelaide GPO	177	697	874	813
Grand Total	605	2168	2773	2,439

(*) It is important to note that distance from a capital city's GPO is not necessarily an indicative measure of whether a given premises can expect to be connected to the **nbn™** network via satellite vs. fixed line or fixed wireless services. It is **nbn's** practice to deploy Sky Muster™ satellite services where providing fixed line or fixed wireless connections to that area would be unworkable.

()** It is also important to note that potential, inactive connection numbers:

- are reflective of a point in time and may change due to alterations in **nbn's** network deployment plans, such as with upgrades in access technologies;
- would include sites designated for **nbn's** wholesale broadband clients, i.e. retail service provider or RSP trial locations and **nbn's** own monitoring sites for testing the health of the **nbn™** network;
- would also represent sites or locations where end-users may not wish to connect to the **nbn™** network, e.g. at an isolated building in a rural, remote or inaccessible location;
- would also include premises where end-users may have chosen not to connect to the **nbn™** network and to retain legacy services; and
- would also include premises where end-users may subsequently choose to connect to **nbn™** network services at a future date, noting that end-users with Sky Muster™ connections can continue using their legacy (copper line) services and for which there is no mandatory disconnection requirement. This is not the case within the **nbn™** network's fixed-line (copper) footprint, where end-users have roughly 18 months in which to migrate to the **nbn™** network before they are disconnected from legacy services.

(*)** Subset of the "Grand Total" column, premises considered "complex" for the purposes of **nbn's** Tech Choice program, being ineligible for a Tech Choice quote due to cost or complexity.
